

THE SAFEST SPOTS TO SECURE YOUR PET

In a 3-Row Vehicle

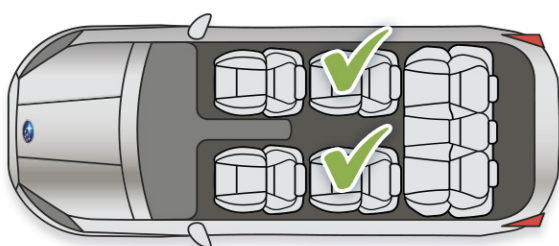

Never Place a Pet on the Floor Between Captain's Chairs

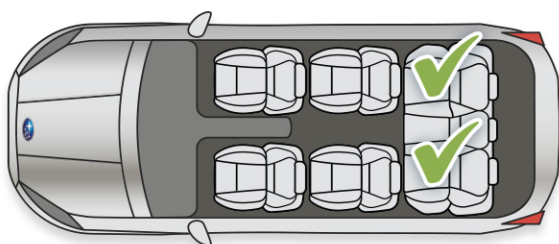

Pets can become projectiles and cause serious injury to both the pet and vehicle passengers.

2nd Row

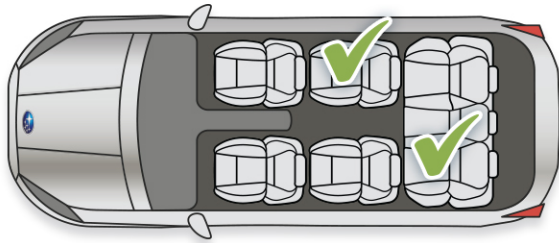

Pets 20 lbs. and under should be properly secured in a 2nd row captain's chair.

3rd Row

Pets 20 lbs. and over should be properly secured on the 3rd row bench, directly behind the captain's chairs.

Kids & Pets

Secure the child in the 2nd row and secure the pet in the 3rd row, on the opposite side of the vehicle.
